

Prioritization Worksheet

List five top desires or goals you wish to prioritize. Compare two at a time using the chart below and circle which of each pair “wins” (takes priority). Tally the number of wins for each goal and the one with four “wins” is first priority, three “wins” is second, and so on. If there is a tie, it means they are of equal importance.

Remember: Our desires and goals have timelines and costs. Include this information for deeper discernment.
