Large Decision Worksheet

The decision to purchase a home, move across the country, change jobs, or any other large decision, is based on a variety of factors that are both financial and emotional. This worksheet is intended to guide you toward making an informed choice by considering all the factors.

What is important about making this decision?

How do you want to feel after deciding?

What difference will it make once you move forward with the decision?

Who are you making this change for?

Who else will this impact?

How would you feel if you do not move forward?

What is the best part about the change?

What could be disappointing?

What does it feel like when you anticipate this decision?

If your decision is specifically related to a large purchase, here are a few more considerations:

How often will it be used?

How will you manage the maintenance? Do you need insurance and a certificate of authentication? Will you need a customized storage area?

Who else will enjoy this?
